
Focus Surface Science Research

surface science and technology - ethz - surface science and technology research profile the Isst is involved in research in numerous areas of surface science and technology, with a special focus on: - surface modification and analysis (fabrication of polymeric and other organic coatings and characterization by **focus issue on surface plasmon photonics introduction** - introduction to the focus issue on surface plasmon photonics surface plasmon photonics is an evolving field and is well considered as a major driving force for cutting edge research in optical science and engineering. **earth and planetary surface processes focus group ...** - planetary surface science. the epsp focus group program committee is responsible for our fall meeting sessions. current members are: katie skalak - co-chair ... scientific enterprise. together, they highlight how earth and space science research can help grow our economy and enable our society to thrive.

theoretical surface science: a microscopic perspective - theoretical surface science: a microscopic perspective physics - monograph (editorial c. ascheron) december 13, 2007 ... no longer the focus topic of the research in this field. instead, the interest has ... on theoretical surface science held at the technical university in munich. **focus on surface analysis - springer** - focus on surface analysis michael kopnarski published online: 18 march 2011 # springer-verlag 2011 since the early 1970s, surface, interface and thin film analysis has evolved from surface science and has become a rapidly developing area in research and technology. this type of analysis, briefly referred to as surface analysis, **an estimate of the configuration of the surface of the ...** - the surface of the earth's core from the consideration of surface focus pcp travel times supplement to final report 1 june 1966 through 30 may 1970 prepared for geophysics division air force office of scientific research arlington, virginia 22209 by charles g. bufe september 1970 geophysics laboratory institute of science and technology **frontier research in earth sciences (fres) - nsf** - focus on all or part of the surface, continental lithospheric, and deeper earth systems over the entire range of temporal and spatial scales. fres projects will typically have a larger scientific scope and budget than those ... science research are also encouraged. investigations may employ any combination of field, laboratory, and **near-surface geophysics focus group newsletter: may 2017** - near-surface geophysics focus group newsletter: may 2017 ... near-surface geophysics focus group (nsfg) may 2017 newsletter upcoming meetings at a glance meeting (click to go to ... how earth and space science research can help grow our economy and enable our society to thrive. **a non-destructive testing method on characterizing the ...** - this research mainly consists of 3 parts: 1) the brief theoretical introduction of the surface wave theorem and the establishment of the testing system. 2) the testing procedure on the coating a non-destructive testing method on characterizing the curing process of coated materials with line-focus surface wave transducer system yuxiang wang, m.s. **optical methods of surface measurement - nist** - optical methods of surface measurement ted vorburger, guest researcher ... • observations on possible research with these methods for firearms ... applications in forensic science • brasstrax-3d "depth from focus (dff)" ... **science earth science - nasa** - earth surface and interior: characterizing the dynamics of the earth surface and interior and forming the scientific basis for the assessment and mitigation of natural hazards and response to rare and extreme events. • • • • the research portfolio includes the completed interdisciplinary science project, with a focus on research in ... **focus on the future - the college of engineering at the ...** - focus on the future david grainger appointed new chair of bioengineering. 2 newsletter winter 2016 ... "he has outstanding research, teaching ... including the 2013 excellence in surface science award from the surfaces in biomaterials founda-david grainger had made a difficult decision. his **architecture art chemical engineering chemistry civil ...** - surface science, envirochemical engineering, process systems engineering, energy science and engineering, and complex fluids engineering. energy research is carried out in collaboration with the national energy technology laboratory (netl), a department of energy national laboratory. m.s. in chemical engineering and colloids, polymers and surfaces **david cahill department of materials science and ...** - department of materials science and engineering, materials research laboratory, ... • post-doctoral work, 1989-1991, ibm research division, surface science. • avoid my mistakes - i did not have a well-defined scientific goal for my research. ... - you should focus on your scientific or technological goals, i.e., ...
