
Innovative Subsurface Remediation Field Testing

innovative subsurface remediation technologies - us epa - innovative subsurface remediation technologies richard t. wilkin eris board-epa joint meeting ... groundwater remediation strategy developed for separate ammonia and nitrate plumes remedies implemented in late 2002 (site owner, ok dept. agriculture, epa region 6) mw6 mw9 mw3 **remediation of napl source zones: lessons learned from ...** - innovative remediation studies were conducted between 1994 and 2004 at sites contaminated by nonaqueous ... to test the ability of various subsurface remediation technologies to remove nonaqueous phase liquid (napl) ... conducted at the groundwater remediation field laboratory (grfl) at the dover national test site (dnts) ... **remediating subsurface mercury contamination using ...** - subsurface remediation sites. 3. istd well field design and layout terratherm's istd technology is unique in that it creates very aggressive remediation conditions in-situ, thereby avoiding the effort and expense of removing the contaminated material, which would then require additional treatment or re-disposal. **art in-well air stripping - an innovative technology ...** - and dynamic subsurface circulation™ in an innovative wellhead system. ... developed a robust, field-flexible technology that shows effective remediation of volatile organic compounds (voc). art integrated remediation system art has developed an innovative remediation technology that is based on well-proven and established concepts. the art ... **overview of innovative remediation approaches for ...** - overview of innovative remediation approaches for chlorinated solvents mark l. brusseau1 robert g. arnold2 wendell ela2 james field2 1department of soil, water, and environmental science, and ... **testing and demonstration sites for innovative groundwater ...** - testing and demonstration sites for innovative groundwater remediation technologies ... solvents facilities remediation oak ridge subsurface weirs, tn halogenated vocs, non- 10+ ft. extensive for radioanalytical in situ characterization and monitoring halogenated aromatics, and and tracer analyses technologies for soil or ground water ... **"in-situ/ex-situ specialty subsurface remediation"** - remediation solutions. based on these successes, eden was founded to offer these innovative in-situ/ex-situ treatment solutions to others in the environmental field. click on the "services" tab for more information. (oxidation/reduction/emulsification) and enhanced bioremediation our company offers remedial solutions unique to each **environmental remediation science program** - environmental remediation science program ... and fate of contaminants. additionally, these tasks will require the development of innovative tools for detecting ... field-scale investigations. the ultimate goal of the ersp is to provide the doe with field-scale descriptions of subsurface processes affecting contaminant transport or ... **environmental remediation science program** - to support innovative, fundamental research investigating coupled chemical, biological and physical processes affecting the transport of doe-relevant contaminants within the subsurface at doe sites leading to new or improved subsurface remediation techniques and a sound **remedial technology fact-sheet activated carbon based for ...** - in situ subsurface remediation in the u.s.: bos-100® & 200® (rpi), cogac® (remington technologies), and plumestop® (regeneration) are the four most commonly used commercial products. cat-100® from rpi is the most recent product, developed based on bos-100®. one research group in germany also developed a product called carbo-iron®. detailed ... **objectives and are combined with appropriate innovative ...** - 1 usepa's innovative remediation technologies: field-scale demonstration projects in north america, 2nd edition, 542-b-00-004, 2000, provides a cumulative collection of projects where best practices of innovative technologies were used and a holistic look at the evolution of remediation technologies in real world settings.
