
Spectrum Aware Multicarrier Communications Physical Layer

multicarrier communication and cognitive radio - multicarrier communication and cognitive radio m. nazarpour isfahan university of technology abstract in this article, we review different multicarrier communication methods for cognitive radio (cr) systems. cognitive radio is an exciting and promising effort for solving the spectrum crowding problem. there, the **cognitive radio communications for dynamic spectrum access** - cognitive radio communications for dynamic spectrum access slides based on set provided by alexander m. wyglinski research assistant professor ittc the university of kansas this work was generously supported by the national science foundation (nsf), via grants ani-0230786 and ani-0335272, and both the defense advanced research projects agency **intentional jamming suppression in a frequency-domain ...** - additionally, to fully sample the signal spectrum with bandwidth w is the use of conventional uwb multicarrier communication given by systems in military applications has the potential risk of being] af, _ [wtq, (2) prepared through collaborative participation in the communications and **filter bank multicarrier (fbmc): an integrated solution to ...** - filter bank multicarrier (fbmc): an integrated solution to spectrum sensing and data transmission in cognitive radio networks . outline ... • have the capability to be aware of their surrounding environment **physical layer for spectrum-aware reconfigurable ofdm on an ...** - physical layer for spectrum-aware reconfigurable ofdm on an fpga adolforecio and peter athanas department of electrical and computer engineering virginia tech blacksburg, va frecio,athanasg@vt abstract—orthogonal frequency division multiplexing (ofdm) can provide a flexible usage of the spectrum by controlling individual subcarriers. **distance-aware multi-carrier (damc) modulation in ...** - cation will alleviate the spectrum scarcity and capacity limitations of current wireless systems, and enable new applications both in classical networks and novel nanoscale networks. in this paper, a novel distance-aware multi-carrier (damc) modulation scheme is developed for both single-transmitter single-receiver and single- **underwater cognitive acoustic networks revised 19th july ...** - iet communications research article ofdm-based spectrum-aware routing in underwater cognitive acoustic networks issn 1751-8628 received on 8th march 2017 revised 19th july 2017 accepted on 10th september 2017 e-first on 17th november 2017 doi: 10.1049/iet-com.2017.0244 ietdl huma ghafoor1, youngtae noh2, insoo koo1 **cognitive radios: present and future directions** - cognitive radios: present and future directions carlos cordeiro wireless communications and networking (wican) ... (“aware of spectrum usage in vicinity, ... power time frequency 6 mhz tv channel [mhz] spectrum ‘white’ spaces (unused tv channels) multicarrier transmissions in unused tv channels non-contiguous transmissions. research 10 **spectrum aggregation overview and challenges** - spectrum access and aggregation scheme-discontiguous orthogonal frequency division multiplexing (dofdm). with the dofdm technology, discrete spectrum bands are aggregated, which can provides large bandwidth to the users with high requirement. they also propose an algorithm called aggregation-aware spectrum assignment (aasa) with **adaptive use of spectrum in frequency hopping multi-band ...** - communications are to achieve data rates of the order of several mbps, for which a wideband modulation scheme is required. additionally, to have sufficient anti-jamming properties, such a waveform would use the spread-spectrum technique of frequency hopping. in the 225-400 mhz tactical band, there are **development of a software defined radio (sdr) for ...** - existence of spectrum holes, which can be detected and used by secondary cognitive users in an opportunistic basis. a. dynamic spectrum access dynamic spectrum access (dsa) is the generic designation created to address a set of techniques that compose agile and spectrum aware radios. dsa radios utilize the radio **towards interference-immune and channel-aware multicarrier ...** - towards interference-immune and channel-aware multicarrier schemes: filters, lattices, and interference issues ... it has been a privilege to have the opportunity to do research as a member of wireless communications and signal processing (wcsp) research group. ... designed based on spectrum-nulling **on the use of filter bank based multicarrier modulation ...** - on the use of filter bank based multicarrier modulation for professional mobile radio markku renfors1, faouzi bader2, leonardo baltar3, didier le ruyet4, daniel roviras4, philippe mege5, martin ... **spectrum pooling: an innovative strategy for the ...** - s10 ieee radio communications • march 2004 periods. ofdm modulation is a candidate for such a flexible rental system as it is possible to leave a set of subcarriers unused providing an adaptive transmit filter. in order to fully understand the presented ofdm-based approach to spectrum pooling, a short introduction to this popular multicarrier **ieee transactions on terahertz science and technology, vol ...** - in this paper, a distance-aware bandwidth-adaptive resource allocation scheme is developed for thz band communication networks, which has the objective to improve the distance. the proposed scheme captures the unique channel peculiarities including the relationship between the dis-tance and the bandwidth, and strategically utilizes the spectrum
